dsi Associates Celebrates One-Year Anniversary

dsi Associates, a highly skilled construction company from the Chicagoland area, is celebrating the one-year anniversary of their launch in Bay County, Florida. dsi Associates made the decision to open a second location in Northwest Florida after being awarded a project at FAMCAMP on Tyndall Air Force Base. The recent completion of renovations at FAMCAMP coincided with their anniversary in the area.

With the completion of the FAMCAMP project, dsi Associates is looking to a bright and successful future in Bay County. Susanne Hogan, CEO of dsi Associates, affirmed, "We just finished the FAMCAMP project and we plan to expand to new projects in Bay County. Our expertise is in the construction of education, transportation, and institutional facilities. We look forward to working in many different arenas." FAMCAMP renovations involved all 26 acres with careful consideration to the existing vegetation on the property. dsi Associates updated all electricity and sewer systems at the facility. The campground includes RV campers, cabins, and recreational lodges and is designed for active duty and retired military personnel and their families. "FAMCAMP was a one-year design-build project to update the entire facility," Susanne recalls.

About dsi Associates

dsi Associates was founded in 1993 and upholds the qualities of accountability, the use of common sense, and offers up unique perspectives. The company continues to deliver quality construction by utilizing clear communication and detailed monitoring for clients ranging from federal and state projects to the private sector and nonprofit organizations.

dsi Associates is typically working on instructional buildings, airports, and roadways; however, their expertise in quality construction reaches to projects like, schools, training centers, banks, zoos, and grocery stores. People often inquire what dsi stands for Susanne Hogan responds, "The answer is simple: we are Direct, Strategic, and Insightful."
